The Band Hindoslem from Vienna the capitol of Austria is great fun, pleasure and enlightenment. This is New World Disorder power metal awash in gorgeous melodies, harmonies, backing vocals and quirky electronic movements. Their music is so infused with a deadly, punching vibe that it instantly puts your fists in the air and makes you feel like you will conquer the world. Hindoslem based around vocalist/guitarist Michael and Bassist Christopher. They still hang on to the anger of their youth to keep their Music evil like it was when they started. Their Music explores themes such as death, chaos and changes and takes the listener on a journey. After a long time of touring thru the longest valley, the highest mountains and the deepest oceans, Hindoslem is still here to be an extraordinary Rock Act on Mother Earth. They want "You!" to join the movement and raise your fist in the air.
